

CO2IN FEE STRUCTURE

Effective as of May 24, 2021

The table below outlines the fees charged by The CO2IN, a.s. for its services on the CO2IN Club App and is governed by the Terms and Conditions.

All fees are based on available Transactions within the CO2IN environment. Fees are calculated from the turnover of a given transaction (Total EUR value of Transaction, or quantity of CO2IN paid/burned).

Transaction fees are automatically deducted from the appropriate Wallet (EUR, CO2IN) as part and parcel of the transaction. You will always see the Transaction fee and its appropriate denomination (EUR, CO2IN) in Wallet – Transactions (in the App), or in a Transaction statement (*forthcoming*).

All transactions and fees are calculated with four decimals precision, but only a rounded number to the two decimals is displayed in the app.

Minimal Transaction fees of 0,01 CO2IN apply for Transactions of PAY and BURN (*forthcoming*).

The Transactions, which carry a fee are:

- Purchase of CO2IN (BUY)
- Sale of CO2IN (SELL)
- Payment with CO2IN (PAY) – includes both direct payment, and accepting a payment request from another user (via app, or QR code).

Note: Receiving CO2IN from another user does not bear a fee on the Recipient end of the transaction. The Transaction fee for a CO2IN PAY transaction is always borne by the Payee, i.e. the account from which the CO2IN are sent.

- Burning of CO2IN tokens (BURN) (*forthcoming*)

Transaction Type	Fee (in %)	Fee denomination	Minimum Transaction	Minimum fee (<i>forthcoming</i>)
BUY CO2IN	1,00	EUR	1 CO2IN	-
SELL CO2IN	2,00	EUR	1 CO2IN	-
PAY CO2IN	0,10	CO2IN	0,01 CO2IN	0,01 CO2IN
BURN CO2IN (<i>forthcoming</i>)	0,10	CO2IN	0,01 CO2IN	0,01 CO2IN
